Combo Reader Fallback Test Set

Most unattended devices like vending machines or gas pumps will use a chip and magstripe combination card reader. This card set provides four cards that have a chip that will fail when read by the chip reader. This set provides an easy way to test fallback scenarios.

The following cards are included in this set:

1. Visa with malfunctioning chip
2. MasterCard with malfunctioning chip
3. Amex with malfunctioning chip
4. Interac with malfunctioning chip

MSR Fallback Test Set

If all you need are some magnetic stripe cards with a service code indicating it is a chip card, then this set is all you need. Allows you to test that your solution handles the various track2 service codes.
